

Graphic Design Intern

EquipNet helps global Fortune 100 manufacturers buy, sell, and manage laboratory instrumentation, process and packaging equipment, and entire facilities that are surplus to the organizations. All of our marketing efforts are conducted through our corporate headquarters in Canton, MA. We're looking for a graphic design intern for the summer 2011 session to handle the overflow of work from our staff designers.

Qualifications:

The candidate must be completely competent in Adobe Systems CS3 programs including; Photoshop, Illustrator, InDesign, and Dreamweaver.

Experience with video shooting and editing big plus but not required.

Candidate must have experience with basic html email and/or website design, direct mail layout, presentation creation, etc.

Send your resume and examples of your work to:
