Additional Services

EquipNet Services for Your Surplus Laboratory Equipment

Taken individually, our services help customers meet various independent challenges such as having assets that they can no longer use, or needing to buy equipment quickly and economically. When combined, however, our services seamlessly unite to provide a comprehensive surplus asset management program.

Site Closures and Projects

Whether it's a site closure, a facility reorganization, or simply excess items, EquipNet will manage the sales process while you maximize cash value recovered.

Individual Asset Sales

You can list one piece of equipment at a time or hundreds. We will work with you to select the sales channel that best fits your timeline to help you generate the highest returns.

Consignment Services

EquipNet's Global Consignment services provide simple equipment storage solutions that ensure your equipment is organized, secure and showcased in a global facility.

Outright Purchase Program

Surplus equipment takes up valuable space at your facility. Our Outright Purchase Program provides you with immediate financial return and helps clear idle equipment from facilities.
